

Weather tendencies and indications

<i>wind</i>	<i>pressure</i>	<i>tendency</i>	<i>weather indications</i>
SW to NW	30.10 - 30.20	steady	Fair with slight temperature changes for 24-48 hours
SW to NW	30.10 - 30.20	rising rapidly	Fair, followed by precipitation within 48 hours
SW to NW	30.20 & above	steady	Continued fair, with no significant temp. change
SW to NW	30.20 & above	falling slowly	Slowly rising temperature and fair next 48 hours
S to SE	30.10 - 30.20	falling slowly	Precipitation within 24 hours
S to SE	30.10 - 30.20	falling rapidly	Increasing wind, precipitation. within 12-24 hours
SE to NE	30.10 - 30.20	falling slowly	Precipitation within 12-18 hours
SE to NE	30.10 - 30.20	falling rapidly	Increasing wind, precipitation within 12 hours
SE to NE	30.00 & below	falling slowly	Precipitation continues 24-48 hours
SE to NE	30.00 & below	falling rapidly	Precipitation, with high wind, followed by clearing within 36 hours, and in winter, colder
E to NE	30.10 & above	falling slowly	<i>Summer:</i> light wind, rain not for several days <i>Winter:</i> precipitation within 24 hours
E to NE	30.10 & above	falling rapidly	<i>Summer:</i> rain probably within 12-24 hours <i>Winter:</i> precipitation with increasing winds
S to SW	30.00 & below	rising slowly	Clearing within few hours, then fair several days
S to E	29.80 & below	falling rapidly	Severe storm imminent, clearing within 24 hours, followed by colder in winter
E to N	29.80 & below	falling rapidly	Severe gale and heavy precipitation; in winter followed by colder temperatures
toward W	29.80 & below	rising rapidly	Clearing and colder
